

### SUMMARY OF SERVICES

Patrick provides the following process-based services:

- Facilitation and assistance with strategic and organisational planning,
- SCAMPI<sup>SM</sup> appraisal team member services,
- CMMI<sup>®</sup> based process improvement consulting,
- People CMM<sup>®</sup> based workforce capability training and consulting,
- PSM based measurement implementation,
- Independent cost and schedule validation, and
- Workshop facilitation.

### EXPERIENCE

Patrick brings extensive experience and achievements in consulting for process improvement. These include:

- Conducting CMMI<sup>®</sup> based process improvement information sessions, executive overviews, and workshop facilitation,
- Consulting in organisational and process improvement, including model interpretation and application, specifically within project management, engineering and competency management,
- Being an experienced SCAMPI<sup>SM</sup> appraisal team member,
- Developing CMMI<sup>®</sup>, SCAMPI<sup>SM</sup> and PSM tools and process assets,
- Developing acquisition management, contracting, estimation, and systems engineering process assets,
- Managing and implementing the development of processes, procedures, work instructions, and templates for best practice initiatives, and
- Providing independent cost and schedule validation services to organisational programs.

Patrick is a CMMI<sup>®</sup> consultant and an experienced SCAMPI<sup>SM</sup> appraisal team member, and has been actively working with the CMMI<sup>®</sup> since 2001. He regularly consults to organisations in improvement, including consulting in project management, systems and software engineering, and supply chain management.

Patrick is also an experienced PSM based measurement practitioner, and consults to organisations on best practice estimation techniques, and validation of cost and schedule programs.

His contribution to process improvement resulted in Patrick being presented with a Recognition Award by the Australian Department of Defence for contributing to the development of a standard acquisition process framework in 2003. More recently, Patrick's effort in best practice estimation resulted in S-3 being awarded the Outstanding PSM Transition Organisation for 2007.

Patrick is experienced in training delivery, and regularly conducts information and executive sessions. He presents at the university Masters courses as a guest lecturer. Patrick has experience in a wide range of instructional techniques including lecture theatre, class room, workshop discussions, and one-on-one mentoring and training.

His competencies in the CMMI<sup>®</sup>, People CMM<sup>®</sup>, SCAMPI<sup>SM</sup> and PSM has resulted in Patrick being highly regarded and respected in process improvement consulting, appraisals and training.

## **QUALIFICATIONS**

Patrick graduated in 1997 with a Systems Engineering degree (with Honours). He undertook his studies at the Australian National University in Canberra, Australia.
